

CST26CC

CRYSTAL CLEAR TAPE

2.7 MIL THICK

55 YD (50M) & 110 YD (100M)

UV RESISTANT

Non-yellowing clarity with long shelf life.

CRYSTAL CLEAR

Excellent transparency with no fish eyes.

VERSATILE APPLICATION

Ideal for lamination, carton sealing, and cold environments.

DESCRIPTION

CST26CC Crystal Clear Tape is a 2.7 mil (0.068mm) premium grade tape made with a biaxially oriented polypropylene (BOPP) film and a solvent based acrylic adhesive.

Its exceptional clarity maintains a professional appearance on packages and documents. The tape is UV resistant, non-yellowing, and offers reliable adhesion without fish eyes. Suitable for moderate duty sealing, lamination, and general purpose packaging—even in cooler conditions.

Meets specification A-A-1684C.

USES

- Carton Sealing
- Lamination
- General Purpose Packaging
- Cold Temperature Applications

TECHNICAL SPECS

Total Thickness	2.7 mil (0.068mm)
Film Thickness	1.1 mil (0.028mm) / 40 micron
Adhesive Type	Solvent Based Acrylic
Adhesion to Steel	28 oz/in
Tensile Strength	27 lbs/in
Elongation	140%
Temperature Resistance	32°F to 140°F (0°C to 60°C)
Backing Material	Biaxially Oriented Polypropylene (BOPP)
Core Size	3" (76mm)
Imprint	"CRYSTAL CLEAR" (Blue/Orange)
Shelf Life	Long Shelf Life

STORAGE CONDITIONS

Store in a clean, dry area at 60°F to 80°F (15°C to 25°C) with a relative humidity of 40% to 60%.

Keep away from heat sources and store in the original packaging. Avoid prolonged exposure to direct sunlight.

CSTC34CC

CRYSTAL CLEAR TAPE

3.6 MIL THICK
55 YD (50M)

UV RESISTANT

Resists yellowing for long-lasting clarity.

CRYSTAL CLEAR

High transparency with no fish eyes or cloudiness.

VERSATILE APPLICATION

Perfect for lamination, carton sealing, and use in cool or cold conditions.

DESCRIPTION

CSTC34CC Crystal Clear Tape is a 3.6 mil (0.091mm) premium grade packaging tape made from a 60 micron BOPP film coated with a solvent based acrylic adhesive.

Engineered for consistent performance, it offers a smooth, quiet unwind, excellent adhesion, and superior clarity for a clean professional finish. The tape remains stable over time, resists UV exposure, and performs reliably in a wide range of temperatures.

Meets specification A-A-1684C.

USES

- Carton Sealing
- Lamination
- General Purpose Packaging
- Cold Temperature Applications
